About us

Cloud Consultancy for Digitalization & Security – CCDS is an ISO 27001 & ISO 9001 Certified Company Specialized in IT and Information Security which has its international headquarters in the UAE. It also has branch offices throughout the MENA Region with its premier office in Saudi Arabia. Innovative and professional in its approach, it always partners with best-in-class products and services, to identify and solve security threats and issues for its clients.

Our Certifications

Our Mission

Offer innovative and hi-tech IT solutions on a turnkey integrated basis that match perfectly with the business needs of our customers to help them enhance their productivities and bottom lines. In the process, we ensure that our internal and external stakeholders benefit meaningfully.

Our Vision

We envision upgrading the processes and systems of our clients so that they are able to excel in their industry and area of work, in a safe and secured manner.

From the Desk of CEO

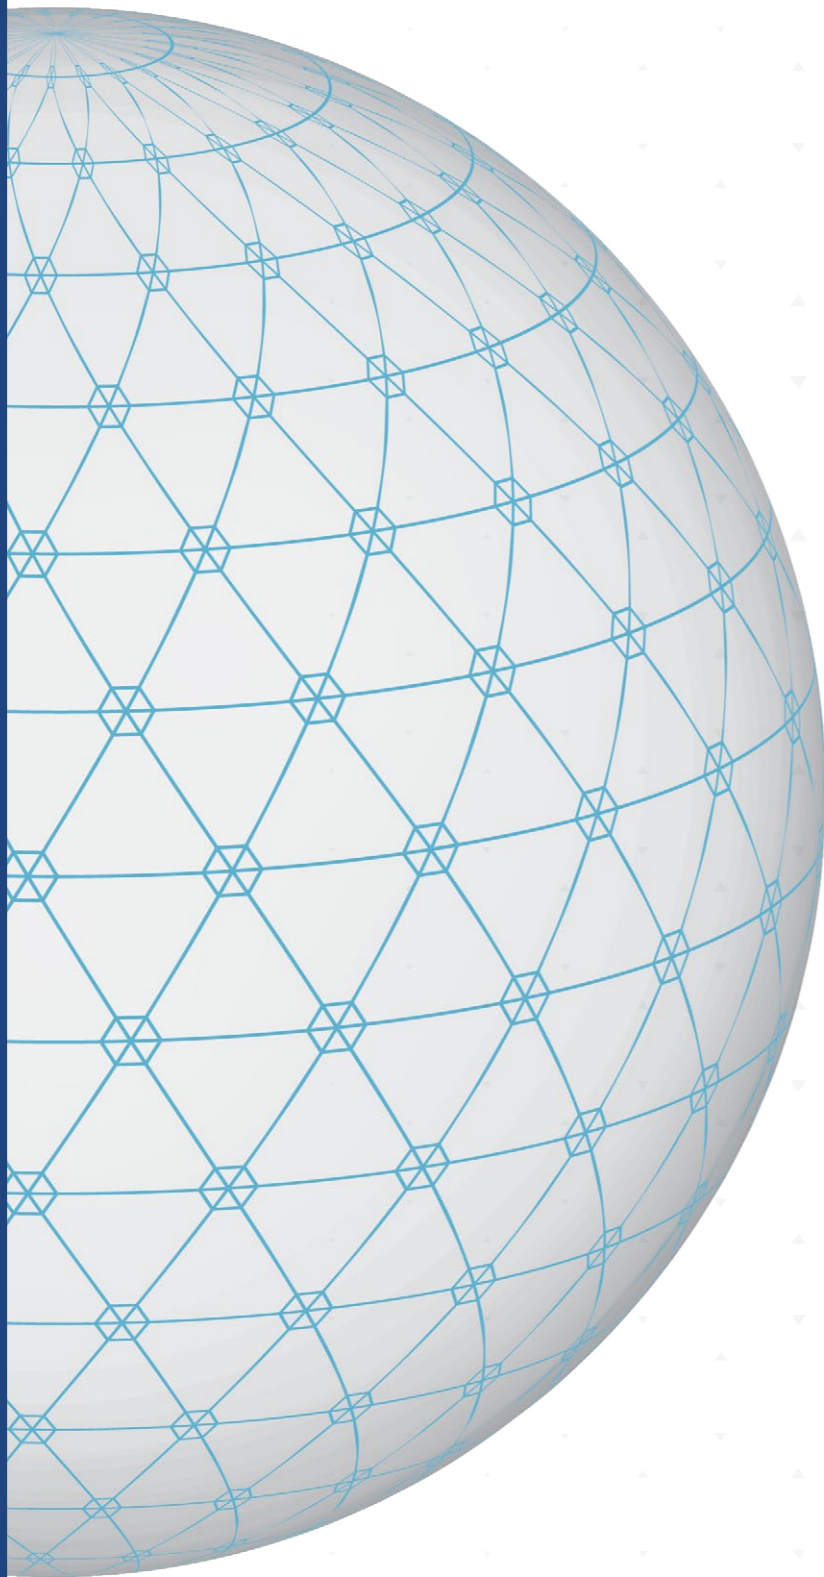

I would like to welcome you all at CCDS website. Our vision has always been to be a leader at IT industry by leading the IT transformation at middle east, we used to look for the IT futures and introducing the best-in-class technologies vendors to the market, which cover end to end solutions and services, which is implemented and managed by a highly qualified engineer.

Furthermore, we have built our own software portfolio which led the process automation and digitalization. At CCDS, we always provide our customers with state-of-the-art solutions considering the cost, security, performance, and operations.

Our aim is to build a long-term partnership with our customers and vendors by working with them very closely to help and support them to achieve their business needs and goals

Ahmed Fathy
Chairman & CEO

CCDS Consultation Program

Virtual Chief Information Security Officer

Virtual CISO Program

Qualified Personnel to address compliance, architecture, policy and security concerns without creating a project. This disruptive approach to staffing senior resources allows the value of years of experience dedicated to your account without the costly and time-consuming process of managing projects and initiatives individually. Use your CISO when you need advice, a deliverable that can be templated or on small projects.
